

# ORGANICS ORIGAMI

Follow these steps to make an economical liner for your kitchen organics container.

**STEP 1**  
Stack 3 to 4 sheets of folded out newspaper on top of each other.

**STEP 2**  
Fold one corner down to make a triangle, tear off excess paper.

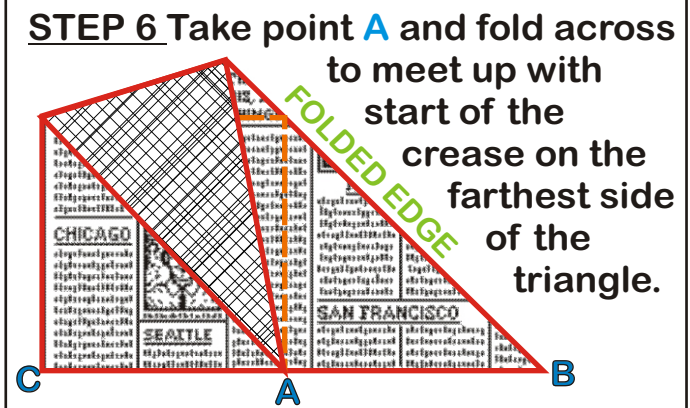

**STEP 3**  
Fold point **B** to the top of the paper to meet at point **C** and make a crease.

**STEP 4**  
Fold point **A** to the top of the paper to meet at point **B** and **C** and make a crease. This will form a square.

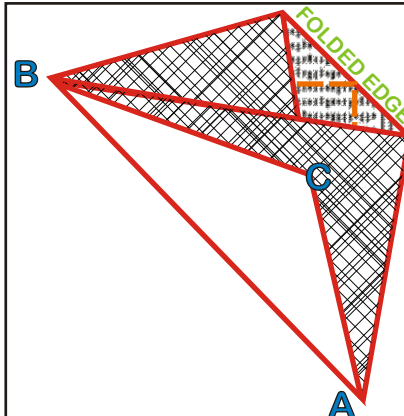

**STEP 5**  
Unfold last 2 creases made so the newspaper forms a triangle again. The previous 2 creases are your guidelines for the next steps.

**STEP 6** Take point **A** and fold across to meet up with start of the crease on the farthest side of the triangle.

**STEP 7**  
Take point **B** and fold across to meet up with the crease on the other side of the triangle.

**STEP 8**  
Divide the layers of the newspaper at point **C** and fold down towards the bottom of the container.
