Written opinion

MESSAGE

As more of our Members become less able to manage their in-ground allotments, the need for adequately sized, stand-up box gardens, increases. It's terribly sad when a member has to give up gardening entirely due to our current lack of raised garden boxes. Having more raised gardens, would enable more Seniors to continue gardening - something that is beneficial to physical and mental health. We also require safer, more accessible, pathways throughout the garden. We have had a number of falls this season due to the current state of the pathways. It's easily remedied, but requires manpower and equipment that we do not possess. On behalf of all the Members, I thank you for considering these needs.

Presentation

I WISH TO PRESENT FOR A 10-MINUTE BLOCK DURING THE FOLLOWING DATE AND TIME WINDOW:

Wednesday, October 26 from 7pm to 9:30pm
