**QUESTION PERIOD**

---

The question period started at 6:08 p.m. and finished at 6:17 p.m. One (1) person submitted questions prior to tonight's meeting, and they were answered during the meeting.

1) Lee Wise

The resident firstly inquired about the total budget allocated by the City for the pickleball court, covering expenses such as purchase, delivery, installation, and storage for the current fiscal year, to which acting Mayor Erdelyi responded that the pickleball court was considered a capital investment project, with an estimated cost of around \$132,000 and that majority was allocated to equipment purchase, approximately \$4,000 for setup, and an additional \$4,000 for takedown.

The resident then inquired about the revenue generated by the pickleball court, to which acting Mayor Erdelyi responded that the average weekly revenue was about \$1,200. However, he advised considering the limited operational period 14 weeks from July to mid-October and noted that most users accessed the courts with their fund cards. As the project was a pilot, the City planned to evaluate profits more thoroughly in 2024.

The resident also inquired any damages and potential miscalculations in the designated space, to which acting Mayor Erdelyi responded that there was damage to one of the roles but assured that there were no miscalculations in the space allocation.

Subsequently, the resident then inquired about the budget projection for the upcoming year, to which acting Mayor Erdelyi responded that the City expects expenses to amount to around \$40,000 in 2024.

Regarding the resident's unspecified item related to installation in Rembrandt Park, Acting Mayor Erdelyi presumed it pertained to the basketball nets. He clarified that no correction was needed for the nets, but there was an upgrade for the backboards. They were replaced with plexiglass backboards, known for noise absorption and enhanced aesthetics. The cost for this upgrade was approximately \$7,000.

The resident then inquired about the closure of the ACC during the holidays and queried the amount of money saved through this measure and questioned why these savings couldn't be achieved by cutting capital expenditures (capex), to which action Mayor Erdelyi responded that during statutory holidays, the labor cost increases significantly, either at a time and a half- or double-time rate. Keeping the ACC open during holidays would incur substantial expenses due to these elevated labor costs. As for capex, the City has to separate the operating budget in capex.
